MONTANA MAGIC, NEW YORK LUXE, MIAMI COLOUR

MAY 2023

PLACE TO VISIT

For interior designers Louisa Pierce and Emily Ward, their shop, Pierce & Ward, in Los Angeles's Los Feliz neighbourhood, was a place to bring their maximalist, fancy folk aesthetic to everyone and make shopping for the home fun and inspiring. For those further afield, their collections, which now include furniture, lighting, pillows and special decor, can be perused online, where you'll find this pleated lampshade pendant in Blue Floral with a matching cord cover for \$695.

FORM AND FUNCTION

The Charlotte bookcase by Bontempo is not only beautiful but offers practical design solutions. Its modular form can be fixed to walls and ceilings, meaning it can separate two rooms but maintain a light and airy feel. Made from brass, oak veneer and glass, it starts from £10,000 and can be customised to suit your scheme with different elements like this new glass cabinet.

PASSION FOR PATTERN

In celebration of its bicentennial, Braquenié, available at Pierre Frey, launches Anniversaire 1823-2023. This collection of fabrics, wallpaper, rugs and carpets is inspired by the Château de Versailles, the Louvre, the Musée de la Toile de Jouy, the Musée des Arts Décoratifs and the archives of Pierre Frey.
